

For sale, 1953 Armstrong-Siddeley Sapphire 346. export model (left hand drive and dual carburetors), Wilson pre-selector transmission. Sold new by Pacific Motoros in Vancouver. Engine has been thoroughly re-built, everything else needs restoration. It runs, drives and stops but would need some further work to call it a "driver". Rust in the front floor and a few other areas. Comes with a few spares, a shop manual, owners manual and a large quantity of A-S English and Australian club publications. \$7,500.00 (US) or would consider interesting trades for other British autos that are not so much of a project. What have you ? Please feel free to e-mail or call for more details and photos. Thanks. [cherter@peoplepc.com](mailto:cherter@peoplepc.com) (360) 656-6196. Located in Ferndale, WA just 20 minutes south of the border off I-5
